

Presentations

TWCA 2007 (Tasmanian Wound Care Conference) - Key Note Lectures

Presented by Dr. Jane Chapman MBBS, FRACGP, MACMEN, MAIMA

"Bodihealth Technologies"

Presented by RN Marg Riley

"Wound Healing and Prevention of Amputation in a Diabetic"

Natural Therapies and Health Expo 2007 - Key Note Presentation

Presentation by Dr. Dean Stubbs (M.B, Ch.B FRACGP MACMEN)

"Electro Medicine in Wound Healing and Ulcer Prevention : Evaluating Clinical Outcomes"

SMA VIC 2007 (Sports Medicine Association) - Key Note Presentation

Presentation by Dr Dean Stubbs (M.B Ch.B FRACGP MACMEN)

"BioElectrical Medicine in Sports"

SMA QLD 2007 (Sports Medicine Association) - Key Note Presentation

By Dr. Dean Stubbs (M.B, ChB. FRACGP MACMEN)

"BioEnergetics and Sports Medicine"

A.I.M.A 13th International Holistic Health Conference 2007 - Key Note Presentation

Platinum Sponsors

Presentation by Dr. Dean Stubbs (M.B, ChB. FRACGP MACMEN) & Marg Riley (R.N)

"BioElectrical Body"

A.I.M.A 12th International Holistic Health Conference 2006 - Poster Presentation

Platinum Sponsors

Presented by Dr. Dean Stubbs (M.B, ChB. FRACGP MACNEM)

RACGP 2005 (Royal Australian Collage of General Practitioners) - Darwin

Dr Dean Stubbs (M.B, ChB. FRACGP MACNEM)

QLD Wound Care Association - Key Note Lecture

Presented by - Professor Bok Y.Lee (MD, F.A.C.S) "The Antioxidant Effect"

A.I.M.A. 11th International Holistic Health Conference 2005 - Key Note Presentation

Platinum Sponsors

Presented by Professor Bok Y. Lee (MD, F.A.C.S.)

Adapted from Prof. B.Y. Lee (Ed), The Wound Management Manual, McGraw-Hill, New York, 2005

[Antioxidant Effects of Ultra-Low Microcurrents.pdf](#)

A.I.M.A 10th International Holistic Health Conference
2004 - Key Note Presentation

Platinum Sponsors

Presented by Dr. Zac Baran MBBS, Dip (Obst.) RACOG, FRACGP, MACNEM, FCoHM, Radiography Licence.

EPRT - A Bioenergetic Solution

Electro Pressure Regeneration Therapy is based upon the premise that the human body is essentially a highly complex, constantly transforming, and fully integrated energy system, not merely an anatomic structure subject only to the laws of mechanics and chemistry. Unlike other electronic medical devices, which simply jolt the nerves and tissues with bolts of electricity that bounce haphazardly through the body, EPRT generates a gentle steady stream of electrons that flow softly and smoothly throughout the body's internal energy network like water gliding slowly through a field of irrigation channels, permeating every tissue and saturating every cell with the healing energy and regenerative power of electrons. The following paper will discuss clinical experiences from using the device and some of the conditions treated.

First World Congress of Chinese Medicine - 2003

The Efficacy of Electro-Pressure Therapy in Healing Dehisced Surgical Wounds

Melbourne, Australia 21-24 November 2003

Bok Y. Lee, Constantino G. Mendieta, Alfred J. Koonin, Keith Wendell, and John Hillard

The Electro-Pressure Regeneration Therapy (EPRT) Device is a new device that delivers an alternating current (maximum of 3 milliamperes) of one polarity for 11 minutes, and then alternates to the opposite polarity for another 11 minutes. Thus this device can be considered a long-term bipolar balanced waveform device.

A.I.M.A. 9th International Holistic Health
Conference – 2003

A 30 Year History of the Application of Electric Fields to Verified Successful Tissue Regeneration and Wound Healing

Steven M. Kaye, MD

From the promise of Robert Becker's work in the 70's to accomplishments of Bodihealth Technologies today, this lecture reviews the medical discoveries that influence the electrical condition of the human body leading to great advances in the diagnosis and treatment of disorders, injuries and disease. It will also discuss the medical research utilizing EPRT, cumulating in a technology that can create rapid wound healing and resolve acute and chronic pain.

A 30 Year History of the Application of Electric Fields.pdf

Presentation to the Gerontology Research Group,
UCLA (University of California , Los Angeles)

Presented by Dr. Alfred J. Koonin, M.B., Ch, B., Ph.D., FRCS

Antioxidant Effects of Ultra-low Microcurrents

Bok Y. Lee, MD, FACS

Keith Wendell, Ph.D.

The healing effects of electricity have always been ill understood. However, with the advent of subatomic particle physics and the electron theory of electrical current, explanations of electricity acting as an antioxidant become more likely. In order to understand how electrical currents can function as an antioxidant, the formation and effects of free radicals and their interaction with antioxidants needs to be understood.

Medical Conference Presentations Prior to 2002

- Advances in Wound Care Symposium - Nashville, TN, USA, October 2000

"Preliminary Results of the Bodihealth device in Healing Cutaneous Ulcers"

- 4th Australian Wound Management Association Conference - Adelaide, SA, Australia, March 2002

"Preliminary Results of the Bodihealth device in Healing Cutaneous Ulcers"

- A4M- Anti-Aging Show -Las Vegas, USA, December 2000

"The Effect of Electro-Pressure Therapy on Wound Healing as Related to Aging"

- Advanced Wound Care Symposium - Las Vegas, USA, May 2001

"The Effect of Electro-Pressure Therapy on Wound Healing as Related to Aging"

- 87th Annual American College of Surgeons Clinical Congress - New Orleans, LA, USA- October 2001

"The Effect of Electro-Pressure Therapy on Wound Healing as Related to Aging"

- Australian Society for Medical Research Conference (ASMR) - Surfers Paradise, QLD, Australia, November 2001

"The Effect of Electro-Pressure Therapy on Wound Healing as Related to Aging"

- 4th Australian Wound Management Association Conference - Adelaide, Australia March 2002

"The Effect of Electro-Pressure Therapy on Wound Healing as Related to Aging"

- A4M- Anti-aging Show - Las Vegas, NV, USA December 2000

"Regeneration of Necrotic Tissue with the Bodihealth device"

- Advanced Woundcare Symposium - Las Vegas, NV, USA May 2001

"Regeneration of Necrotic Tissue with the Bodihealth device"

- Advances in Skin and Wound Care Symposium - Lake Buena Vista, FL, USA September 2001

"Regeneration of Necrotic Tissue with the Bodihealth device"

- Australian Society for Medical Research Conference (ASMR) - Surfers Paradise, AU, November 2001

"Regeneration of Necrotic Tissue with the Bodihealth device"

- Womens Expo - Pasadena, CA, USA March 2001

"Antioxidant Effects of Ultra-low Microcurrents"

- Advances in Skin & Wound Care Symposium - Lake Buena Vista, FL, September 2001

"The Effect of Electro-Pressure Regeneration Therapy on Healing Dehisced Surgical Wounds"

- 4th Australian Wound Management Association Conference - Adelaide, Australia, SA, March 2002

"The Effect of Electro-Pressure Regeneration Therapy on Healing Dehisced Surgical Wounds"

- Australian Society for Medical Research - ASMR - Gold Coast, QLD, Australia November 2001

"Regeneration of Necrotic Tissue with the Bodihealth device"
